PROFESSIONAL EXPERIENCE

Freelance Mobile Developer (Self-employed)

March 2025 - Current

React Native Developer

- **Piks Daily** (Poland-based project) (React Native, TypeScript, JavaScript, Swift, Kotlin)
 - * Architected separate, isolated user flows for **Pet Owners and Walkers** using **React Navigation and custom UI components**, streamlining onboarding and reducing friction.
 - * Engineered a **real-time GPS tracking system** with **optimized background location polling**, cutting **device battery consumption by over 30%** during active walks.
 - * Integrated **Ramer-Douglas-Peucker path-smoothing algorithms** to eliminate map **jitter and reduce location data payloads by 40%** without sacrificing tracking accuracy.
[Android](#) [Ios.](#)
- **Slate Healthcare** (US-based project) (React Native, TypeScript, JavaScript)
 - * Built and shipped a **healthcare job-matching app** end to end, integrating Firebase Cloud Messaging for push notifications and Twilio Chat for real-time in-app communication.
 - * Implemented **face authentication** for secure onboarding, as well as document upload and **verification workflows** for compliance.
[Android](#) [Ios.](#)
- **Sonastar Project** (React Native, JavaScript)
 - * Designed and built the entire **application from scratch**, including **admin and client-side functionality** for end-to-end **medicine management**.
[Android](#) [Ios.](#)

Adwaita Educare (BabyCloud)

March 2023 - February 2025

Software Development Engineer

- Designed and launched the **Babycloud Bizz** app for healthcare and education professionals, delivering performance enhancements that **increased user engagement by 50%** and **reduced crash rates by 25%**.
- Architected a **multi-functional child care module** featuring advanced analytics and developmental tracking, driving a **35% increase in user adoption** and improving recorded development outcomes by 20%.
- Optimized React Native frontend rendering by effectively managing component state, **reducing UI re-renders in core features (like QnA) by 70%** to guarantee a highly responsive user experience.
- Engineered network-layer improvements by optimizing the **refresh token API**, successfully consolidating multiple parallel execution requests into a single efficient call to minimize server load.

Bajaj Finserv Health Limited

July 2022 - December 2022

Software Development Engineer Intern

- Implemented **multiple file upload feature in chat** and **optimised the loading speed by 30%**
- **Migrated the library of Camera and BottomSheet** to make it fast and user Interactive.
- Raised B2C squad unit-test coverage **from 30% to 60% using Jest**.
- **Reduced the unnecessary API calls** and optimised the code quality.

ACHIEVEMENTS

Ranked among the top 6 contributors out of 40 contributors at DevIncept open-source project ([GitHub](#)).

CORE SKILLS

Languages: JavaScript, TypeScript, C++, HTML, CSS, Swift(native module), Kotlin(native module)

Mobile & Frontend: React Native, React.js, Next.js, Redux, Redux Toolkit, Context API, React Navigation, Expo, IOS & Android development, App Store Connect, Google Play Console.

DevOps & Tools: Git, GitHub, GitHub Actions, VS Code, Xcode, Android Studio, Postman, Figma, Jest, CI/CD.

EDUCATION

Acropolis Institute of Technology and Research

Aug 2019 - June 2023

Bachelor of Technology in Computer Science and Technology ; CGPA : 8.66

Indore, M.P
